I am a passionate front-end developer skilled in building high-performance, scalable web applications using React, Redux Toolkit, and JavaScript. With experience across multiple production projects, I specialize in transforming designs into pixel-perfect, responsive interfaces and optimizing performance through code splitting, lazy loading, and efficient state management. My work includes integrating RESTful APIs, developing reusable components, and implementing caching strategies, resulting in measurable improvements in load times and development efficiency.

WORK EXPERIENCE

Frontend Developer

Apr 2025 - Present

Hypertext Solutions Private Ltd.

Islamabad, Pakistan

- Developed responsive, user-centric web interfaces using React.js and Tailwind CSS, implementing mobile-first layouts from Figma design files.
- Managed UI logic and side effects using React Hooks to support dynamic content updates and predictable application behavior.
- Structured frontend applications with clean, modular component architecture to improve maintainability and scalability.
- Enhanced page performance by optimizing rendering logic and minimizing unnecessary re-renders, resulting in faster load times.

Developed caching methods to decrease server load and improve page load time by 25% for repeat visitors.

Frontend Developer

Sep 2023 - Mar 2025

Smart Coders (SMC) Private Ltd.

Islamabad, Pakistan

- Built and maintained scalable React applications using Redux Toolkit and RTK Query to manage complex application state and server data.
- Developed reusable and configurable UI components using Tailwind CSS, ShadCN UI, and Styled Components to ensure design consistency.
- Implemented performance optimization techniques including code splitting, lazy loading, and memoization to improve rendering efficiency.
- Integrated RESTful APIs using Axios and Fetch API, enabling efficient data exchange between frontend and backend systems.

Developed a Reusable Components in React to cut the time of developing future projects by an average of 30%.

PROJECTS

Select Healing – Yoga Courses

- Developed a full-featured admin panel for managing courses, podcasts, classes, and newsletters.
- Implemented protected routes, dynamic forms, and Axios-based API utilities, delivering a fully responsive, secure, and maintainable platform.

Improved administrative efficiency and content management, reducing manual workload and streamlining course updates.

Vehicle Website

- Built a responsive card-based car listing UI with dynamic filters, geolocation search, and interactive detail popups.
- Integrated Axios APIs for real-time data fetching, ensuring fast performance and seamless user experience across devices.

Enhanced user engagement and search efficiency, increasing site usability and customer satisfaction

Tutoring AI Platform

- Built AI-powered dashboards for teachers, students, parents, and admins, enabling real-time performance tracking and automated grading.
- Implemented class management, AI-generated questions, and AI-based grading, improving teacher efficiency and student engagement.

Increased teaching efficiency and student engagement while reducing manual grading and administrative work.

Fame Exchange – Fan & Talent Interaction Platform

- Developed a platform for real-time fan–talent interactions with request management.
- Enabled talents to accept, reject, or reschedule requests, providing instant updates to fans.

Increased platform engagement and user satisfaction by ensuring seamless and interactive communication.

Cool Market – Ecommerce Platform

- Created dynamic ecommerce pages for standard, auction, and offer products, optimizing UI performance and user experience.
- Implemented Add to Cart functionality and optimized API calls with RTK Query, reducing load times and improving data handling.

Improved customer experience and sales conversions by enhancing website responsiveness and reducing load times.

EDUCATION

Bachelors in Computer Science

Sep 2017 - Sep 2021

PMAS Arid Agriculture University, Rawalpindi

CERTIFICATIONS

Web & Graphic Designing by National Training Bureau, Islamabad

Sep 2018

SKILLS

FRONTEND DEVELOPMENT: React.js, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS, Shadcn/ui, Material UI, Styled Components, Bootstrap, Redux Toolkit, RTK Query, React Hooks, REST APIs, Responsive Web Design, Git, GitHub
